Chapter 1: The Science of Psychology - Research Methods in ...

Chapter 1 The Science of Psychology. Many people believe that women tend to talk more than men—with some even suggesting that this difference has a biological basis. One widely cited estimate is that women speak 20,000 words per day on average and men speak only 7,000. This claim seems plausible, but is it true? A group of psychologists led by Matias Mehl decided to find out.
