Developer Documentation

Magento is an open-source e-commerce platform written in PHP. It uses multiple other PHP frameworks such as Laminas and Symfony. Magento source code is distributed under Open Software License v3.0. Magento was acquired by Adobe Inc in May 2018 for \$1.68 Billion USD. The software was originally developed by Varien Inc., a US private company headquartered in Culver City, California, with assistance from volunteers. More than 100,000 online stores have been created on this platform. The platform co
