## Webquest History Of Oceanography Answers

The science of modern oceanography is only a little less than \_\_\_\_ years old. This field of science began in the \_\_\_\_ century when Americans, British, and Europeans launched a few expeditions to explore ocean currents, life, and the seafloor. 5. Name the first scientific expedition to explore the world's oceans and sea floor.

## Exercise 18 oceanography answer key - DomenicCavanaugh's blog

Most of the major discoveries in oceanography have occurred only within the last 50 years. We have found that while rocks and sediments on land are usually wiped away by weather and erosion, rocks and sediments on the seafloor are a well-preserved archive of information that allows us to unravel Earth's geological processes and history. Oceanography may be one of the newest fields of science, but its roots extend back several tens of thousands of years when people began to venture from ...
